

100% CIRCULAR
& RENEWABLE

ENVIRONMENTAL GOALS & CHALLENGES

GLOBAL GOALS

Climate neutral Supply Chain 2030

- Energy Efficiency
- GHG emissions reductions
- Renewable Energy

A positive impact on water in our value chain by stewardship actions

- 100% Functional waste water treatment
- Water efficiency and recycling

Leading the change towards safe products and toxic free fashion future

- Zero Discharge of Hazardous Chemicals 2020

CHALLENGES IN MYANMAR

Need to build skills

- Environmental awareness
- Environmental Management (EMS)
- Technical

Need for new infrastructure & technology

- Energy
- Water
- Waste

Policies

- Incentives for investments
- Level the playing field on the market
