

DREDGING AND RECLAMATION COURSE (YANGON, MYANMAR)

DATE: 15/01/2018 - 19/01/2018

FOR WHOM?

For (future) decision makers and their advisors in governments, port and harbour authorities, off-shore companies and other organizations that have to execute dredging projects. The combination Boskalis-Van Oord organizes the International Course on Dredging and Reclamation. This Course will be held from Monday 15 January through Friday 19 January 2018 at the Inya Lake Hotel (tbc) in Yangon, Myanmar

GENERAL

The Dutch Dredging Contractors Boskalis and Van Oord will provide a week-long Course especially developed for professionals in dredging-related industries. As is appropriate to a dynamic industry, the Course programme includes the basic dredging methods, new equipment and state-of-the-art dredging techniques.

With this Course the two Dredging Companies wants to encourage people to enter the field of dredging, and to improve knowledge about dredging throughout the world.

THE COURSE IN BRIEF

To optimize the chances of the successful completion of a project contracting parties should, from the start, fully understand the requirements of a dredging project. This five-day course strives to provide an understanding through lectures and workshops by experts in the field to give the “students” hands-on experience.

SUBJECTS

- overview of the dredging market and the development of new ports and maintenance of existing ports;
- project phasing (identification, investigation, feasibility studies, design, construction, and maintenance);
- descriptions of types of dredging equipment and boundary conditions for their use;
- state-of-the-art dredging and reclamation techniques including environmental measures;
- site and soil investigations, designing and estimating from the contractor's view
- costing of projects and types of contracts such as charter, unit rates, lump sum and risk-sharing agreements;
- design and measurement of dredging and reclamation works;
- early contractor involvement.

PROGRAMME

Highlights of the programme are:

Day 1

The Need for Dredging/Capital and maintenance dredging/Project Phasing/Survey.

Day 2

Dredging Equipment + Site Investigation.

Day 3

Production, Tender, Hydraulic Fills.

Day 4 + 5

Cost Pricing, Contracts + workshops.
