

Ministry of Infrastructure  
and Water Management

# Towards a knowledge agenda

Henk Ovink, Special Envoy for  
International Water Affairs

14 February 2018

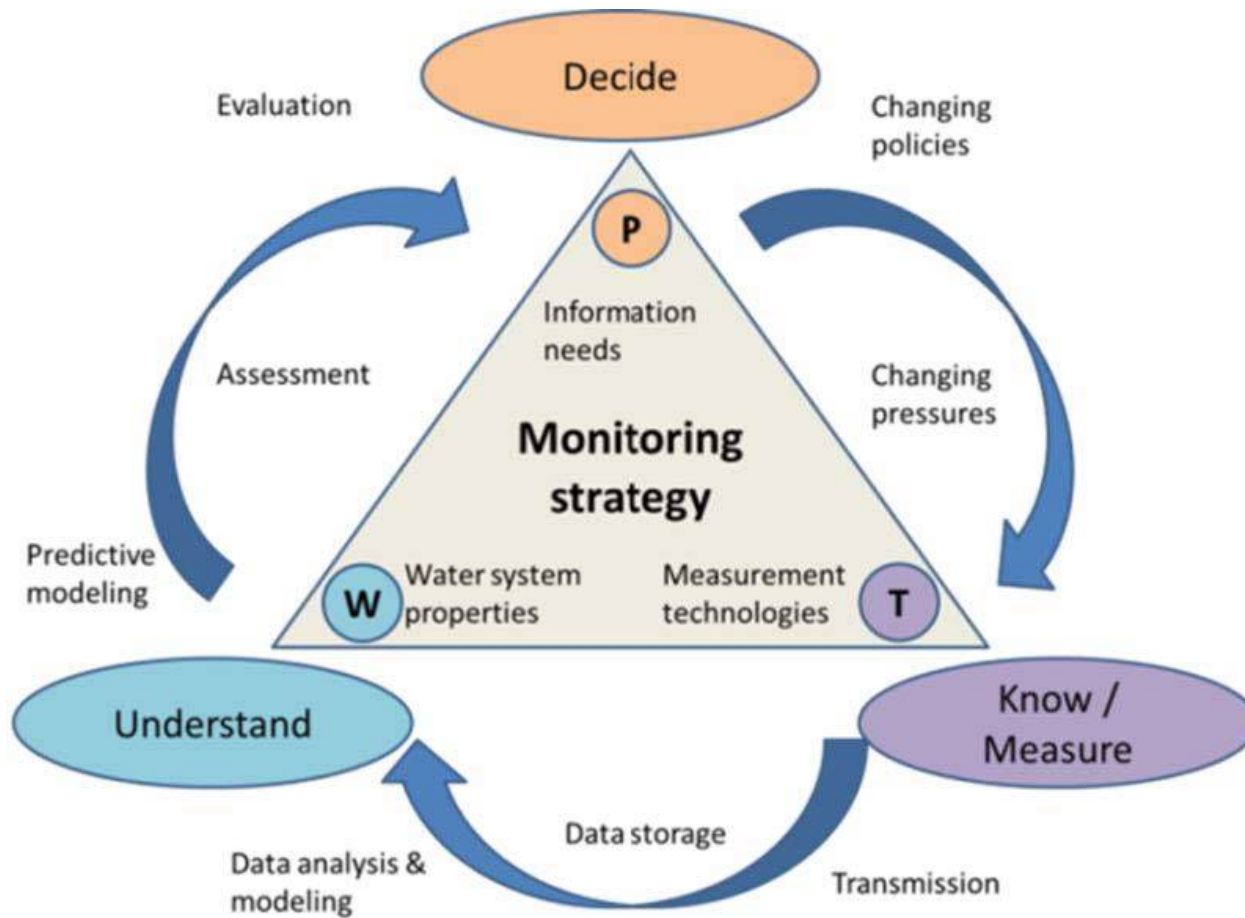

## The context:

- Myanmar develops rapidly
- Water security is essential
- Change requires flexibility
- The answer: adaptive delta management & integrated planning
- Requires shared knowledge base

## A shared knowledge base

- Data
- Capacity for data interpretation & modelling
- Capacity for policy advice
- Trust is essential → joint fact finding

# Organising your knowledge

- Begins with knowledge questions
- Understand needed data and capacity
- Where to house data and capacity
- Rethink: it is a process!
- The Goal: Prioritize investments, avoid mistakes!
